April 7, 2022

Dear Patient,

We are happy to announce we are bringing on a new provider. We are overly excited to welcome Pamela Webber NP to Bad River Health and Wellness Center on April 11, 2022!

Pam's hometown is Bessemer, MI. Pam earned her post-graduate certificate as a Family Nurse Practitioner from Carson-Newman University in Jefferson City, TN, her MSN from University of Phoenix, and her BSN from Northern Michigan University. She had the opportunity to do one of her clinical rotations here at the Bad River Health and Wellness Center with Dr. Laverdure as her preceptor. "I genuinely enjoyed my clinical experience and Dr. Laverdure's philosophy of emphasizing healthy lifestyles to prevent diseases and screening for early detection of diseases. Patients have the best outcomes when conditions are detected early."

Pam Webber NP

In Pam's free time, Pam Webber NP enjoys hiking to nearby waterfalls, skiing, biking, reading, cooking, baking, and spending time at Lake Superior.

Pam Webber NP after working in hospitals as an RN for 25 years, caring for patients with acute health problems, wanted to focus the rest of her career on helping patients to avoid the healthcare problems that had brought them to the hospital.

"As a Family Nurse Practitioner, I will focus on preventing illnesses and early detection of diseases so my patients can live their best lives."

You can book your next appointment with Pam Webber NP by calling the clinic at (715)682-7133.

We look forward to seeing you soon!

Sincerely,

Your Health Care Team at Bad River Health and Wellness Center
